ABOUT MYSELF

I have a solid background spanning 6 + years in project management and web development, I have honed my skills using popular technologies such as Node.js, React.js, and Python, as well as gained expertise in the field of cybersecurity.

Throughout my career, I have successfully undertaken various projects, leveraging my proficiency with the tools above to create web applications that meet functional requirements and prioritize user-friendly interfaces. My commitment to excellence extends to collaborating closely with clients, allowing me to grasp their unique needs and deliver solutions that are not only technically sound but also provide exceptional value.

My academic background includes a Master's degree in Computer Science and Engineering obtained through a prestigious scholarship program, and a Bachelor's degree in Software Engineering, both from the Addis Ababa Science and Technology University (ASTU). Additionally, I have undergone specialized cybersecurity training via a scholarship program at Iserial, Ariel University.
